Dear Parents,

At Pierre de Coubertin, we see the importance of creating sustainable principles. We want to encourage our students to continue implementing the 3 R's—reduce, reuse and recycle. This will help them develop positive environmental values for themselves and their school community. Students at Pierre de Coubertin along with the members of our Green Team will be resume our *Waste-Free Lunch* every Wednesday. This means that if your child(ren) brings a lunch from home (snacks included) he/she is being asked to bring all food/beverage in reusable, washable containers in a reusable bag. The goal is to have little to no packaging.

What is a healthy zero waste lunch?

A healthy zero waste lunch does not contain throwaway packaging or produce food waste. It also reduces litter because there is less packaging. The typical healthy zero waste lunch is packed in a lunch box or bag. The food is put in reusable containers rather than wrapped in disposable packaging, a drink is in a refillable bottle and all containers are resealable so that leftover food and drink can be saved for later.

Why should we have a healthy zero waste lunch?

By bringing less waste into schools we can minimise litter, reduce waste going to landfill, save money and develop healthy eating habits. Producing excessive amounts of waste is a major problem globally.

Include:

- Sandwich in a reusable container
- Fruit & snacks in reusable containers
- Cloth napkin
- Beverage in thermos or recyclable container
- Reusable stainless steel
- Reusable utensils (fork, spoon, etc.)

Don't Include:

- Individually wrapped items
- Plastic wrap or baggies
- Paper napkin
- Single-serve bottled water
- Plastic straw
- Disposable plastic utensils

Encourage your child to bring home uneaten items and reuse plastic baggies whenever possible.

Our official launch for Waste Free Wednesday will begin Wednesday, November 13th, 2019

Make each day a waste-free day! Thank you for your continued support,
